DETAILED ACTION

The amendment and remarks filed 9/8/03 have been acknowledged and entered:

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-4, 6-10, 13-17, 22-27, 37, and 39 are rejected under 35 U.S.C. 103(a) as being unpatentable over Matsuoka et al.

3. This rejection stated in paper No. 11 is maintained.

4. Claims 5, 11-12, 18-21, 28-30, and 40-41 are rejected under 35 U.S.C. 103(a) as being unpatentable over Matsuoka et al. in combination with Bergman, Koizumi et al., Matthews and Kosofsky et al. and JP'927.

Matsuoka et al. and Bergman, Koizumi et al, Matthews and Kosofsky as discussed supra in paper No. 11 do not teach the temperature as claimed.

JP'927 teaches a method for washing a substrate comprising preheating the substrate to a specific treated temperature.

It would have been obvious for one skilled in the art to use the temperature taught by JP'927 to obtain the claimed process and to improve the cleaning process.

5. Claims 1-2, 5-12, 16, and 25-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Li et al. in combination with Matsuoka et al.

This rejection stated in paper No. 11 is maintained.

The double patenting rejection stated in paper No. 11 has been withdrawn, in view of applicants' terminal disclaimer.

Response to Arguments

6. Applicant's arguments with respect to claims 1-30, 35-37, and 39-41 have been considered but are moot in view of the new ground(s) of rejection.

7. Applicants' argument with respect to "physically dislodging is unpersuasive, because it is inherent in Matsuoka et al.
